SLIDING GLASS WALL

GSW 17

Spend precious time on your terrace or balcony protected from wind and weather. Live the life of luxury with all-glass elements from Sunparadise for enhanced well-being. Whether you require glazing for your balcony or terrace, you will receive a tailored solution that meets your every desire.

Outside becomes inside

The GSW 17 is an all-glass sliding wall with panels that slide individually. It is suitable as a glazing system for loggias, summer gardens, terrace canopies and also as a dividing system indoors.

The GSW 17 can be seamlessly combined with the sliding shading system ShadingPanel 17.

The glass overlap between the panels provides protection from rain and reduces noise pollution.

The opening mechanism enables all panels to be moved together; quickly and easily.

Room division in the interior

The all-glass walls not only look good from the outside, but they are also an elegant way to divide up a room.

What makes GSW 17 special

Stainless steel running track and rollers

Innovative handle and lock types underline the elegant design

ShadingPanel 17 as a design element and shade provider

The advantages of Sunparadise all-glass elements

They protect you from wind and weather, elevate your quality of living and increase the value of your property. With an all-glass system, you can enjoy even more benefits:

Lightweight yet sturdy and durable thanks to highquality materials.

Passive solar energy saves energy costs.

Use of your outdoor area no matter the weather.

Frameless design enables unobstructed views outdoors.

The specialist partner at your side.

Let your dream-home made of
glass become reality and get
advice from your
Sunparadise-partner.
